**In Reference to:  
372 Pinehurst Trl  
Dakota Dunes, SD 57049**

To whom it may concern:

Our company was asked to do inspection of roof at 372 Pinehurst Trl in Dakota Dunes, SD. The roof appears to be about 15 years old. The roof is a high-grade cedar shake. The roof appears to be installed correctly: the rows are very straight the flashings and boots were installed properly.

We did a series of three tests on the roof to verify at least 7-10 years remaining life.

1. Wind test, we turn the pressure up on our blower to excess 70 mph the shakes laid flat and did not start to lift, passed.
2. Thickness test, our gage indicates the shingles are true 35-year thickness with minimal evidence of excessive wear, hail or wind damage, passed
3. Shake condition, the shakes did not appear to have holes and seemed to be in normal working condition, passed.

The roof passed all three of our tests and under normal conditions and normal maintenance, should have 7 to 10 years of life remaining.

Please let us know if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Cody Kuchel".
